By Telegraph to the News. WASHINGTON, Dec 6.-The Joint-Commission having under considera-Bureau from the Civil to the Military department, heard the views of Secthary Schurz this morning. In commesong his remarks the Secretary disclaim d any personal desire to retain that it is likely to assume the ferm of the control of the Indian service under the Interior Department, and said in this connection that no branch of the department's business is so trouble-some and thankless. If it was not that he considered it best for the service and Government generally, that the management of the Indian affairs remain where it is, he would be the last one to advocate it. He thought that the Indians were entitled to human treatment at the bands of the American citizens, and that could only be tendered through the process of civilization, education and kind treatment. This he said, in his judgment. the military were not fitted to promote. The Secretary quoted at considerable length from the report of the Sioux commission, signed by Generals Sherman. Terry, Auger and others, setting forth in effect that of peace with the Indians was required, the management of their affairs should be placed under the Civil Departments of the Government. "Now," said he, "I agree with these gentlemen on this point. There are a great many officers of the army who have excellent ideas about Indian affairs, but it is another thing to being ideas into practical effect." ### Injunction Issued in Favor of the Tax Payers of Wake and circles until every sinner is brought in-

Special Telegraph to the News. NEWBERN, Dec., 6 .- In the case of the Taxpayers of Wake county against the Sheriff to restrain the collection of taxes above the constitutional limitation of 662 cents on the \$100, valuation of property and \$2.00, on the poll, Judge Seymour to-day granted the injunction

A similar injunction was granted in the case of the Taxpayers of Halifax county against the tax collector of that county. The present levy in each county is alleged to be 84 cents on the \$100, and \$2.52 on poll, being 25 per cent more than the legal limit. In the aggregate it will make a difference of several thousands of dollars of taxation in each county. In the first case W. H. Pace and Col. Walter Clark appeared as counsel for the Taxpayers of Wake. The latter and E. T. Clark were counsel for Taxpayers of Halifax county.

Negro Fiend Swings in Warrenton---His Career of Crime--Details of the Execution.

Special to the NEWS. William Jeffries, alias Jefferson, negro rapist, was hanged at Warrenton yesterday. The crime for which he uffered was committed upon Amanda Meyrick, a respectable colored woman of Warren county, at her home, in September last. He was apprehended and brought to trial, and found guilty and sentenced at the Fall Term of Warren court, Judge Seymour presiding, to be hauged Nov. 8th. Soon afterwards a peution for a reprieve was sent Gov. Vance, signed by prominent gentlemen of that section, which stated that certain circumstances made a farther examination desirable. The prisoner was accordingly reprieved until yesterday. It was found, though, that Jeffries was a villian of the deepest dye, for while in jail he made confession of his crimes which brands him as one of the most atrocious of buman beings. He says he was born in Mecklenburg, Va, and is 38 years old. He has always been a great rogue, and was sold three different times for stealing. At the surrender he quit his home and roamed about-having no fixed place of abode, and lived by stealing. In 1865 be raped a colored girl, and

not long after he violated a negro woman. His third attempt of the sort, soon after ma te, was unsuccessful, and he was afterwards captured, tried and conviced, and sent to the Virginia Pententiary for six years. He had been there but a short time when he escaped. After this he broke open and sobbed a number of houses. He made his way to this State, was recognized and sent back to Richmond and again put in the penitentiary. After being re-leased he stole a horse and rode him off. His next adventure was to marry and desert his wife for another woman, Her he soon left, and got in jail for stealing. He broke out and went back to his old paramour, but finding loved another negro waylaid and killed him. He then went to Virginia and lived by stealing. Last Spring he came back to his State and terribly outraged Mrs. Crowder, the wife of a respectable gentieman and farmer, while her husband was in the field at work. He fled to Warren, closely pursued by the enraged husband and his friends. A day o so after this last outrage he committed

the one for which he swung, that upon the Meyrick woman. At 2.30 p. m. yesterday the villian was led out to death in the Warrenton jail yard. A great crowd had gathered, for the multitudinous offenses of the doomed man had become known restraining others from like crimes. The crime for which he suffered is becoming too common in the land and shou'd be visited with punishment, swife and sure.

POLLOCKSVILLE, N. C. Dec. 4 The time to elect a United States Senator is close at hand. The two most prominent ca didates in the field are Z. B. Vance and A. S. Merrimon. I don't suppose there is any question before the public in regard to the abilities of the two men. Either would rightly and creditably represent North Carolina and her interest in the United States Senate, but then it is a question before the public as to who is entitled to this honor. Because a high wayman robs a man

of his all and takes half of the money thus unlawfully obtained and appropriates it to charitable purposes, does that excuse the deed or make him less amenable to the laws of God and man, or wipe from his soul the stain of his sin? If Mr. Merrimon, by a combination of his friends and Republican allies, secured his last election, be certainly Las violated his fealty to the Democratic party and deserves a term of probation. His card to the public, preferring charges against Gov. Vance, was untimely, even were we to admit the justice of the charges. It was calculated to produce discord in the Democratic ranks, but fortunately a discriminating public could decide between a man who was working for his elevation and ambitious ends, even if the accomplishment of them sacrificed the best interest of the Democratic party, and one who was willing to lay his claims before the people and abide their verdict. Z. B Vance is a servant of the people and his greatest glory is in serving principles of the Democratic party and his abnegate love of his common counyear was \$800.000. We can hardly overestimate the importance of this work to the business interests of Fayetteville. Crossing Deep River, the Western Railroad, even with no further extension, will put us in direct communicatron with a section which cannot fail to afford us a large and valuable trade. The extension of the Western Railroad is almost assured, under the charter, which carries it to Greensboro-and we look to Randolph to do its part in making such a subscription as will give that county the railway facilities and transportation so greatly needed. Let the road be finished to Matthews' Cross Roads, and we have little doubt that the means will then be forthcoming to extend it to Franklinsville, on its route to Greensboro. The paramount imtance of building the Florence Railroad becomes evident, and in the next General Assembly a bill will probably be introduced, by which the present charter of the Western Railroad may be so amended and amplified as to put it in the power of the road, so soon as the means can be secured, to carry out the present unfinished railway system. In a few days there will be a meeting called of the Directors of the Western Railroad, and the friends of its extension generally, in Fayetteville, and we believe that the co-operation of the Fayetteville & Florence R. R. Co, can be counted upon. This is a matter of v tal importar ce to our future presperity; for the past six years everything has been done that could be accom-plished to relieve the Western Railroad of its difficulties and clear away the obstacles in its path; the way is now clear, and with the help and cordial support of the people of this part of North Carolina, it can be built to its terminus.

### A Judge on the Jury System. (Judge Miller of the United States Supreme Court before the New York Bar Asso-

It requires all the veneration which age inspires for this mode (trial by jury) of dispensing justice, and all that emineut men have said of its value in practice, to prevent our natural reason rom revolting against the system, and especially, some of the incidents. If a cultivated Oriental were told for the first time that a nation, which claims to be in advance of all others in its love or justice and its methods of enforcing it, required as one of its fundamenta principles of jurisprudence that every controversy between individuals, and every charge of crime against an offender, should be submitted to twelve men without learning in the law, often without any other learning, and that neither party to the contest could prevail until all the twelve men were of one opinion in his favor, he would certainly be amazed at the proposition. Nor have the European nations differed much with him in their estimate of trial by jury. It has been well understood and received the careful consideration of continental jurists for a great many years, without being adopted by any of them, in the form that we have it from England. Many attempts have been made to introduce it in some medified shape, but I think it safe to say that it has not in its essential Anglo-Saxon feature met the approval of any people except those of that race. In the days when kings exercised arbitrary power, the jury was among the sturdy, liberty-loving Englishmen, a valuable barrier against oppression by the crown. But in this country, where the people are sovereign, the jury is but too often the mere reflection of popular impulse, and the safety of an innocent man is more frequently found to depend on the firmness of the judge than the impartiality of the jury. Still it is probably wise that no man shall be convicted of his guilt. I am also forced to admit, however, that even in civil cases my experience as a judge has been much more favorable to jury trials t an it was as a practitioner. And I am bound to say that an intelligent and unprejudiced jury, when such can be obtained, who are instructed in the law with such clearness, precision and brevity as will present their duty in bold relief, are rarely mistaken in regard to facts which they are called upon to find.

The pestilence laid so heavy a hand up m us during the season just past, manifested so s ubborn a resistance to treatment, and was so decidedly inclined to spread far beyond the Valley of the Mississippi into localities North and East, that we

must look forward to next year with apprehension if in the meantime there should be an exceptionally mild winter. It may not seem kind, carelessly considered, to hope for sharp blasts from the northwest and a temperature away below freezing, but even in the interests of those who are ill equipped for an inclement season it would be better to endure the cold of an ordinary winter than to incur the penalty of a

### A Big Run

The Legislature has never yet quite mustered courage to meet the demand for the protection of Sheep Husbandry in a square and candid way. The bills introduced for that purpose have been killed by ridicule rather than argument; | bid them God speed in their undertakand an industry which might under ing and sincerely hope that our next proper security become one of the largest and most profitable in the State, languishes under the levity with which legislators view its afflictions, chief of which is the dog nuisance.

The importance of Sheep Husbandry has been too often elaborated to require argument to prove its importance as a source of food and clothing, as one great mainspring of profitable com. merce, and as a grand agency in all agricultural economy. That an animal so useful, so profitable, so rapidly prolific, se inexpensive in management, so conducive to comfort and luxury, should have been suffered to give way to its great and almost only enemy, the dog, is one of those mysteries of human action scarcely explicable upon any clously bestowed. ordinary principle of buman conduct It is almost the only instance where rich and poor, high and low, agree in For it is nothing more than sentiment that combats the rational claim that a favored pest should be controlled by some legal restriction, and illimitable increase checked by wholesome legis-

That legislation is withheld by certain alleged difficulties in enforcing it. Dogs are not property, and cannot be taxed; or if property, subject like other property to an advalorem tax. But who can affix a standard of value to a dog? Such values are as fanciful and capricious as the humors of the respective owners, and would drive any board of assessors crazy in any attempts at uniform valuation. To reach the evil in this way is therefore impossible. The true principle of treatment is that of dealing with a nuisance, and the power of law in that respect is not de-

How do municipal corporations deal with the trouble? They do not hestitate to impose such tax as will accomplish their purpose; and the greater the nuisance, the greater the tax, and therefore we find dogs of the feminine get der more heavily taxed than their masculine followers. There is no questional masculine followers.

INTURIANT TO FIGN DUTING.

THE fishermen and those directly interested in the fisheries of Carteret county, having organized a "Fishermen's Union" are now prepared to furnish fresh and salt fish to dealers at full pieces, and from Fish Hand Purpose; and the greater the tax, and their them to see the fisher masculine followers. There is no questional masculine followers. The fisher masculine followers are fisher masculine followers. The fisher masculine followers are fisher masculine followers. The fisher masculine followers are fisher masculine followers. The fisher mas tion of property here. It is simply one of nuisance which the corporation claims the right to abridge or abate. we hear nothing of any stretch or violation of the constitution here. If then the principal is admitted on a limited scale, why not on a larger one?

Dogs, in their relation to taxation, should be treated as any other subject which the law regulates as contrary to good morals or offensive to the public sense of decency. Stud horses and jacks are not taxed on an advalorem standard but on altogether different principles. The traffic in liquors is made to struggle under an unequal burden and made to pay a taxation out of all proportion to that levied on any other business representing an equal value of investment. Public opinion not only sanctions this seeming injus tice, but a powerful element of it constautly urges on further repression and we never hear appeals to the constitution urged in defence or for investigation. The rule will apply to all nuisances; and we venture to say that no member takes his seat in the Legislature unaware of the fact that at least half of his constituents regard the dog, in his present privileged existence, as an unmitigated nuisance.

No one is fanatic enough to demand the extirpation of the race of dogs. There is something so touching in the unbought attachment of the dumb brute to his human friend, that it has won upon the heart to an extent that secures indulgence to the dog, even in the very extremity of his capacity for anneyance, that has always raised him up protectors against the clamors for his destruction. The feeling of tenderness influences even those who are awake to the necessity of reasonable limitations; and it will always interpose to protect and preserve such dogs as are worthy of protection and preservation. It is against the unnumbered and innumerable swarm of worthless and destructive supernumeraries that

the aid of the law is invoked. Legislation can make its just and proper discriminations in the imposition of taxes, It can and ought to exempt such animals as may be deemed necessary as safeguards for each household. And for the others, it should impose such tax as would make the keeping of any excess in numbers a luxury, the cost of which is to be counted. And we concur in a suggestion frequently made by some of our contemporaries, that whatever tax is collected shall be applied to the benefit of the common school fund.

Grand Lodge of Masons. As public journalist we cannot permit this Annual Communication of the Grand Lodge of Masons for the State IN THE SOUTH. PERSONS WISHING to pass by with merely a local notice. Assembling on Tuesday evening, this body immediately addressed itself to the work on hand and by the aid of unres mitting action and efficient committees, it was enabled to adjourn yesterday at noon, after one of the most harmonious and successful sessions which it has held for years, and we feel it has not only accomplished much work for the good of masonry, but has placed all of our people under lasting obligations for the determined and unmistakable actions are determined and unmistakable action, the same having been lost or mislaid.

tion it has taken in regard to supporting the Orphan Asylum. Indeed we may say the eyes of our

people were chiefly centered upon this highly important work. When we take into consideration that this order is composed of those who not only contribute their due proportion of taxes to the schoolsand asylums of the State, but in addition voluntarily assume t e responsibility and the burden of gathering up, sheltering, educating and NOVEMBER clothing the orphans of the State, who have been neglected by an injudicious system of legislation, we cannot toohighly commend their noble charity, but General Assembly may find it consistent with their duties to repder them all the aid in their power.

The timely donation of Hon B. F. Moore of \$1,000, looking to a permanent endowment of the Asylum, had a most salu ary effect, recognized as he had ever been for his judicious charity, eminent abilities and purity of life But it was reserved to woman to have led in this work of love; a poor widow had previously given \$5, for the same purpose, and considering her ability she had done much.

Let others follow these examples, remembering it is evermore blessed togive than to receive and that the amounts, however small, will be wisely and judi-

in American recently solved a mysr which had confused and amazed edding party in Rome. The bride daughter of one of the most marquises of old or modern and the groom was the scion of noble house. When the weds atract has been signed the ok the band of his young wife own and kissed its fingers. She sailes at this, and allowed her hand to re he had placed it. But in a ent to the dismay of the company, g voice was heard, as from her lips, Impertment! how dare you uy hand? Be off, fool." Still d as before, and her lover on her face in dismay. Sudseemed to laugh, and it was d ironical laugh that startled more than the words they neard before. "Has that girl gone some one asked. She fainted. and her friends gathered closery around the sola on which she had fallen. At is moment a young American, described as "of great learning, but generally very taciturn and almost timid in offered to examine into the cause of the strange occurrence, and approached the sofa. Casting his eyes and around the sofa and then about the room, he proceeded to crawl along the floor on his hands and knees until he came to a large ottoman. Behind this he found a young servant who had been dismissed from the house that morning and went away declaring that she would be revenged. By some means she had found her way into the parlor and concealed herself behind the ttoman. Being a ventriloquist, she was able there to speak in a tone of voice which was naturally attributed o the bride.

### anything to be Fashionable.

N. Y. Tribune-The princess Louise's reception at M mtreal was held in the evening. The ladies of the city had been officially reminded that their health need not be serificed to etiquette. An advertises ment appeared in the morning journals to the effect that those ladies whose ealth would not admit of their appearng in low-neck dresses might wear re-cut ones on forwarding a medcertificate to the aide-de-camp in iting. Dresses fastening up to the at were not to be worn. Very few ies took advantage of the aid-decamp's intervention. Possibly they d d not wish to cast any reflections upthe salubrity of the climate after the nice things the marquis had said about the depot. There may, morehave been some diffiulty in getmedical certificates of chronic or and probably a sinclination to have them on file with he aide-de-camp. At all events, nearthe dresses worn were low-neckand the aide-de-camp's pigeon-hole apuffed with medical papers. #### The Most Prosperous Year Ever Known.

Full statistics of the exports and imports of all countries show a considerable decrease in trade since 1872, which year would appear to have been the most prosperous commercial year for the whole world ever known. The total trade of that year was \$14 441 .-200,000. Of that trade the Anglo-Saxon nations possessed two-fifths, the Teutonic nations one-fourth and the Latin nations one-fifth. Of the Anglo-Sexon nations the foreign trade of the Inited Kingdom is three-fifths of the aggregate, and that of the Unied States one-fifth. The trade of British ledia and Australia ranks next, the two being nearly equal, and combined, equalling that of the United States. The balance of trade would seem to be in nowise rated with civil zation, the largest and most favorable balance being in favor of Asiatic and African countries; next follow the republics of South America; then the United States, and, finally, Europe. England shows the heaviest balance against her of any country on the globe.

### A Mighty Plant.

A submarine plant growing in the North Pacific Ocean, one of the Melanosperms, and known to botanists as the Macrocistis Pyritera, is said to dwarf all vegetable products yet known by its prodigious proportions. It grows sometimes to such a size as to cover vast areas of sea-bed, one specimen having been discovered that occupied by measurement three square miles, while the stem was eight feet thick. It is difficult to conceive of such a plant, and to understand how any adequate system of nourishment can be maintained through so extended channels. The Macrocistis leaves the famous Big Trees of California immeasurably behind, making them seem, indeed, like small reeds. It has an infinite variety, some specimeas being so small as to be visible only under a powerful microscope. The much-talked-of wonders of nature are more wonderful than has ever been conjectured, as research and science are daily teaching us.

How the Captain Fooled them. Pirates are again becoming numerous in the Persian Gulf, and the device practiced a quarter of a century ago by an English havy captain is suggested. The English government had made repeated complaints to the King of Muscat regarding the jury to British commerce, but without effect, and the officer in question gave his vessel the appearance of an unarmed merchant man. He sailed to the waters which the pirates most frequented, and was soon surrounded by a swarm of their craft. His portheles then opened, and they were treated to successive broadshot. Two-tuirds of the vessels were sunk, and as least six hundred pirates were killed or wounded.

### Maj. Gales' Death.

Hardly a public man in North Caro lina has departed this life in the past decade whose death is more sincerely mourned, and whose loss will be more Seriously fe't than that of Major Seaton Gales, of Raleigh. As a fine journalist, he had few equals; his style was easy, fluent and forcible; as an orator, he was eloquent, impassioned, faultless in manner and expression, and master of rhetoric; as a man, he possessed great personal magnetism and the power of winning and retaining esteem and friendship, for he was gentle and pure as a woman, and won all hearts to himself by the cannot only in manner and the hearts of himself. the beauty of his character. All who knew him well loved him, and those who knew him best depl deeply the sad interposition of Providence which cut him down in the prime of his physical and intellectual manhood.

### ACERTAIN AND SPEEDY **GURE FOR SCROFULA**

FACTS ARE STUBBORN THINGS

(Registered.) A BRIEF HISTORY:
The following is from the Raleigh News,
nd was a voluntary insertion and not an
dvertice product of the state of the s

and was a voluntary insertion and not an advertisement:

"Years ago an old Indian left a receipt for curing Scrotula with Mrs Person's father. Mrs. Person lives in Franklinton. or in that section. A child was born to Mrs. Person, and it had the Scrotula. The doctors gave it up to die. She thought of that receipt, that was now old and musty, and hid away in an upstairs drawer. She concluded if the child was bound to die, it wouldn't hurt to follow that receipt. She went out and gathered the herb, got the whiskey, and did as directed to the child. Her child new lives well and hearty. More than this: Only a few months since a South Carolinian, whose name has slipped us, was suffering with some scrotulous affection on the heel He had been to the Hot Springs in Arkansas, and from there he went to Kittrell Springs. Nothing did him any good. At Kittrell's they told him for Mrs. Person if she cured that South Carolinian sent her word if she cured him he would give her five hondred dollars. She sent him directions what to do, and added if they cured him he could send her twenty-five dollars; she wouldn't ask five hundred. The South Carolinian went home, and shor ly afterward sent Mrs. Person a check for twenty-five dollars, and wrote the most grateful letter he knew how. Bless these old Indians. We would like to have one for a hear neighbor."

UNEQUALLED AS A BLOOD PERIFIER.

MRS. JOE PYRSON : The medicine I purchased of you last win-ter, goved of lasting enedt to my son, who was troubled with 27 running sores, some of them quite large, and of a scrofulous nature. In less than three weeks after com-mencing the use of your remedy, he was perfectly restored, and is to-day quite sound and healthy. As a Tool of the property perfectly restored, and is to-day dure sound and healthy. As a tonic and beloop purifier it has no equal doping that you may be spared for many years of usefulnes, i remain, Very respectfully.

AS A TONIC AND ALTERATIVE MOORESVILLE, IREDE LCo., N. C.

Peing desirous of adoing my testimonic to others, concerning the merits of Mrs Joe Person's Remedy for Screfula, I take pleasure in saying that as a tonic and alterative I do not think it has an equal. I have fairly tested it, and after trying vegetine. Sarsaparilla, Vinegar Bitters, and various other remedies, I have no bestration in pronouncing it far superior to any FONIC I have ever used. When I commenced using Mrs. Person's Remedy I was very weak. complection sallow, and now I am WELL,

Sept. 26. 1878, THREE CHILDREN IN THREE

WEEKS. CASTALIA, N. C. MRS. JOE PERSON :

Dear Madame—Your letter has been received, and on account of being absent from home for a week or two, have not had the opportunity to answer it. I certainly will take great pleasure in doing all that is within my power towards getting you patients for treatment of Scioula. I hardly know how to express my gratitude to you for curing my three ittle children. They took medicine from my tamily physician for about ing my three I tile children. They took meaiche from my family physician for about
two years, with scarcely any relief at a!l. I
tried your remedy, and in less than three
weeks they were all perfectly cured, and
have never shown any sign of breaking out
again. I feel very thankful to you. I can
safely say that I believe your remedy to be a
certain cure for Scrotula. If I can ever be
of any service to you in any way, I want you
to be sure and call on me, Yours truly,
WM. H. ARAINGTON.

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Ferson's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physiciaus, without any good resuit. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After a returned from the institute I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and 'nealing properties, My sores soon began to hear, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my low sp. ritedness fied before the remedy, and I am now enloying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most studborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects, It shoul to taken regularly by all meaus, for I have sometimes neglected it, from the pressure of ousiness, and in all cases found that the cure all eady made would commence to retrograde, and for this alone it should be taken regularly until au effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from scrofula to try it. It will surely cure you if you give it a fait test. I speak from experience, and not from hearsay. I am a graterul recipient of a cure from the use of it and I am under many and Lesting obligations to Mrs. Ferson for the great relief I have obtained from its use. Sufferers, try it and be cured, is my advice.

I am, respectfully, 'It will Care if Fairly Tested."

KITTRELLS, N. C. My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years, and f have no hesitation in recommending it as a sovereign cure for that disease and as a general fonce and Blood Pariner. It is everywhere giving perfect satisfaction, while my experience with it is too limited for me to specially recommend it for other diseases, I believe it will ultimately prove to be of benefit in all cases arising from impurity of ne blood' and probably for other diseases,

A CASE OF CANCER.

FAYETTE VILLE, N. C., Aug. 12, 1878. MRS. JORFERSON:

Dear Madam—I have been using your Remedy for ocrofula overfive months as an experiment for cancer. The cancer is of long standing, the doctors have been treating it, more or less, for twelve years, it has taken off my upper rip and a good part of my nose. When I began to use your Remedy it was growing rapidly worse, but the medicine seemed to check it very soon, and it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days. It then seemed to start anew, and grew worse very fast, until I had taken the medicine about a week, since then it has not changed much. I think if I could have had the medicine doon enough, it would have cured me.

For more than a year before using your medicine, I was troubled very much with a disease of the heart, an irregularity in its action. It would miss eveny the beat for nours, then at other times it would increase in his action, and run up to 200 beats per minute. Since using your medicine I am almost entirely refleved of this, rarely feel it, and then not enough to speak of it. I would recommend any one suffering with heart disease to try your medicine. As a Tonic and Alteratives known to the medical profession for the last 12 years and I know of none superior to this. I think your medicine is destined to be a great blessing to the afflicted. Let every one that needs a Tonic or an Alterative give it a trial, and I do not think they will be disappointed.

Very truly and kespectfully.

The Executive Committee submitted their report, which was received and adopted, and the thanks of the Board tendered the committee for the efficient manner in which they had discharged their duties.

The election of officers for the ensuing year was then held, with the following result, Dr. E. Burke Haywood was uuanimously reelected President of the Board of Directors; A. W. Haywood, Esq., was unanimously elected Secretary and Treasurer, and his bond fixed at \$25,000; Mr. James H. Moore was unanimously reelected Steward of the Institution; Mrs. M. A. Lawrence was unanimously reelected Matron; Mr. James S. West was unanimously re-

elected Engineer.
The Executive Committee, consisting of Mr. Julius Lewis, Mr. A. M. Mc-Pheeters and Rev Dr. B. Craven were unanimously reelected.

The following resolutions were unanimously adopted by the Board of Directors of the Insane Asylum of North Carolina:

Whereas, it is known to the public that a controversy has for some time beeu going on between Dr. Eugene Grissom, the Superintendent of the Asylum for the Insane of North Carolina, and Dr. W. A. Hammond, of New York city, in which the latter has made charges of a most injurious character, not only as to the professional out also the personal reputation of Dr. Eugene Grissom, and by implication has attempted to convey the impression that the patients of this Asylum under his care have been subjected to

cruel treatment, therefore Resolved, that we hereby reassert our confidence in Dr. Grissom, and that the insinuations in relation to the ill treatment of the patients of this Asylum are untrue in every particular, and that we fully concur in the statement made by the Executive Committee to Dr. Grissom, under date of

July 19th, 1878. Resolved, further, that as members of the Board of Directors of the Insane Asylum of North Carolina, watchful of the management of the Institution committed to our care, and as citizens, calcus of the honor of our State, we of the manner in which Dr. Grissom has conducted this controversy, sustained, as he is, by some of the ablest medical journals of the country and most distinguished members of his negro was arrested in the 36 of dis profession, reflecting credit alike upon hims and the State of North Carolina.

The annual official examination was made, and the following resolution adopted:

Resoived, that the Board of Directors, having made their annual examnation of the Insane Asylum, are gratified to find it, in every particular, in a condition so well calculated to conduce to the comfort and health of he patients.

The thanks of the Board were tenlered Dr. E Burke Haywood for the able and impartial manner in which he had presided over the deliberations of the Board.

New York, March II.

We have recently made a careful analysis of the Fort Grape Wine produced by Mr. Alfred Speer, and do not hesitate in pronouncing it pure; it contains all the properties of the Oport, grape, and therefore, for medical uses, it is superior to other Wines. Its principal effects upon the system are mildly stimulating, ciarctic, sudorific and tonic. It will prove beneficia in affections of the ki lneys and chronic diseases, with general debility of the constitution. Physicians mays sifely recommend it to their patients, in place of the many doubtful mixtures too often sold as pure wine.

## PORTNER'S PREMIUM TIVOL LACER BEER.

Southern Depot of

ALEXANDRIA BREWERY 83 MAIN STREET. NORFOLK, Va.

I respectfully ask the attenti in of Dealers and Consumers to our "Tivoli Lager Beer," put up in Patent stopped bottles. Having made a speciality of bottling this Beer, which is brewed by us expressly for export trade, and which received the Prize Medal at the late Richmond, Va., State Fair, "for general

excellence" and which has no superior in this er any other market. I hereby tender my thinks to the citizens of North Carolina who have so liberally patronized me, and ask for a continuance of their patronage.
